

- You know what I got for Christmas? (sneezes) A bad cold. Picked up a cough over Los Angeles, stuffy head over Denver, aches over Chicago. Mrs. Claus brought me all these medicines. All I need is NyQuil, Vicks' nighttime cold medicine. Got that in Boston. NyQuil alone relieves the same symptoms as all these, so I can get the rest I need.

- Got everything?

- Yep.

Narrator: NyQuil alone does it all.

- She's the best present I ever got.
