

(dramatic music)

Announcer: Gravy Train by Gaines. It makes your dog feel like Rin-Tin-Tin. (water splashing) Gravy Train isn't just up to fill 'em, it's great hunks of good food he can bite into, packed with the nutrition that took decades of research to put into a dog food. But what good is dog food unless it tastes good? That's why Gravy Train is also made to make its own gravy when you add water. Or don't add water, and it's a good dry dog food. Wet or dry, Gravy Train is what to feed your dog every day. Sure, you've got a great dog, but is he feeling as great as he should? Feed him Gravy Train every day. It makes a dog feel like Rin-Tin-Tin.
