

- You're not the only one that loves moms sausages. Save some for me.

- Well, I have to eat to grow, dad.

- Your father knows all about eating and growing Billy. My special Saturday breakfast. Sausages, and eggs. They love it. I hate it. Not my food, but the grease. Seems to get on everything. Even your hands feel greasy when the dishwater gets greasy. But look what I found. Dawn, new Dawn. A new dish washing liquid that really works on grease. I don't know how it works, but new Dawn really gets to grease.

Narrator: Here's how Dawn works. We'll add a half cup of strained pork grease to Dawn and dishwater. See how Dawn gets hold of grease, clears up the water. It's amazing how Dawn helps get grease out of your way. Even away from your hands.

- Dawn helps keep grease away from pans, dishes. Even my hands don't feel greasy.

Narrator: Get new Dawn dish washing liquid. Dawn gets to grease, so grease won't get to you.
