

(gentle music)

- Sweeter girls have something. Concentration. Sweeta, a concentrated, no calorie sweetener in a little bottle. Sweeta, the largest selling, best tasting little sweetener in the world. Just two drops of Sweeta are the same as one teaspoon of sugar, but without the calories. Just two drops of Sweeta, not six, or eight, or 10, or all it takes. At that rate, a little Sweeta goes a long way. In fact, if you sweetened four glasses of iced tea a day one little bottle of Sweeta could last you around three months, or one long sweet summer.
