

Announcer: Timeout for a minute riders, to post you on the big news. See this play railroad? Sugar Crisp, the cereal that brings you lots of fun, wants you to have it free. See this special pack, two boxes of Sugar Crisp and a special cover. It says, "Five piece play railroad free with two packages at the regular price." It's all there at your grocers. Nothing extra to buy or send in for. That cover is heavy cardboard. From it, you press out the pieces. No scissors needed, they're already cut. Then they fold and lock together without paste. It's easy, the package shows you how. And there's the station, the train, the gate, the gate man and the crossing marker, all in color. It's lots of fun, like Sugar Crisp, the candy coated cereal, that's fun to eat three ways. For breakfast, it's dandy with milk or cream. For snacks, it's so handy or eat it like candy right out of the box. Get the special package at your grocers. Post Sugar Crisp, with a play railroad built in.
