

(dog barking)

Announcer: They're home from the beach. Bet everyone had a great day. Or did they? What a sunburn! But look, new push-button Ungentine Aerofilm is here. Sprays on to stop sunburn pain, stays on to help promote healing. And poor brother cut his toe on a seashell, but new push-button Ungentine saves the day! Sprays on a medicated film that stays on to help prevent infection. Sister came through without a scratch, but not without a scrape. So new push-button Ungentine comes to the rescue. Sprays on to relieve pain, stays on to help the healing of scrapes and scratches. How about mother? The mosquitoes got her. Another job for new push-button Ungentine! Takes the itch out of insect bites. Sprays on, stays on. No family should be without new Ungentine Aerofilm. From the makers of Ungentine Ointment and Ungentine Squeeze Spray.
