

(patriotic music)

- All over America babies are staging a Great Sit-In. Babies who have never Sat-In before. And what are those babies sitting in? Pampers! Because when babies sit in Pampers, they sit in dryness. Pampers keeps them dryer. Dryer than cloth diapers. Pampers has a special stay-dry lining. Moisture goes through it and is trapped below. Next to baby, the lining stays dryer so baby stays dryer. Outside, Pampers are waterproof to keep you dryer. The Great Sit-In goes on. (music continues) Because when babies sit in Pampers, they sit in dryness. Babies of America, be seated.
