

(brakes squeaking)

Narrator: In the morning, you gave your cold to a cold capsule.

- See you tomorrow.

Narrator: It helped with your sneezing and stuffy nose, but you needed more help than that. Now it's nighttime, you're sneezing again, your nose is stuffed up, you're still coughing, your throat's scratchy, you ache all over. It's time for NyQuil to take over. (gentle music) Nighttime is NyQuil time. Vicks NyQuil nighttime cold medicine relieves your major cold symptoms for hours, so you can get the rest you need.
