

(person sneezes)

- Boy, do I have a cold tonight. If it was just my nose, I might take this cold capsule. It isn't just sniffles, sneezes and a stuffy nose. I also have a scratchy throat, (person coughs) coughing, I feel achy. So, I'm going to take NyQuil.

Narrator: Vicks NyQuil nighttime cold medicine relieves more major cold symptoms than the leading capsules. Relieves them for hours, so it helps you get the rest you need. You got a cold tonight? Put NyQuil to work.
