

(cheerful music)

Narrator: You'll never guess you shave, when you use a Lady Schick electric shaver. Your skin will look as if you didn't grow a hair. That's how smooth it shaves. It was designed, especially for a lady. See? Two sides, one for underarms, the other for leg. Does what a razor can't do. A razor to get close enough has to shave skin as well as hair. Does that dry, patchy look. But a Lady Schick shaves hair only. Those openings are like a comb. They comb up the hairs as the shaver gently removes it. What a blessing for underarms. You can use a deodorant immediately. And they're so pretty. These are the newest. Oriental, red and old gold. Sophisticate, jet black and sapphire blue. And both come in this hatbox carrying case. Most stores offer a 14-day, free home trial. Lady Schick from 14.95 up. They're terrific.
