

- Grease. I hate it. When you cook something special, like lamb chops, grease seems to get everywhere. But with new Dawn dishwashing liquid, grease doesn't get to you. Look, Dawn's in my dishwater. I'll add half a cup of strained lamb grease. It's amazing how Dawn gets hold of grease. Clears up the water. Dawn helps get grease out of your way, away from your hands, pots, dishes, glasses. New Dawn gets to grease so grease won't get to you.
