

- Listen! (electric whirring) One, (electric whirring) two, (electric whirring) three. That's the sound of the most remarkable invention since Schick introduced electric shaving. New Schick 3 Speed. (electric whirring) Hear it? Three speeds. You pick the speed that shaves you best. You actually shift the speed. Shift the speed and adjust the shaving head to shave as close, as fast as you like. You can shift to high for the stepped-up speed a tough wiry beard needs needs, or shift to low for extra gentle shaving action. Three speeds. You pick the speed that shaves you closest. Now speed control and head control. A combination of controls only in new Schick 3 Speed. Set the speed, set the head, get the shave that fits your face, and shave as close, as fast as you like. New Schick 3 speed. Most stores will gladly give you a free demonstration.
