

Announcer: What's your shaving problem? Is your electric razor okay on your cheek, but murder on your neck? Take forever to lather up? Razors scrape and hurt your sensitive skin? Well, whatever your shaving problems, forget them. Just one shave with his new Schick 3 Speed and you'll never be satisfied with any other razor, blade or electric. [Announcer] The Schick 3 Speed not only beats the blade at its own game, but it's the only razor that lets you shift the speed, (electric razor buzzing) and adjust the head to shave as fast as close as you want, without irritation. Makes sense, doesn't it? When you set the speed, set the head, you've just got to get the best possible shave for your particular beard and skin. Prove it to yourself, just one shave and you'll never be satisfied with any other razor, blade or electric. [Announcer] New Schick 3 Speed, with adjustable head. Makes a terrific gift, too.
