

- (Commentator) It's another shutout for Robin Robert.
- Well Hi Robin, mind if we chat a bit?
- Glad to Bud! I'm just relaxing here eating an orange. Have one will you?
- Love to! Say it looks like you really want that orange.
- I really crave these after pitches.
- You know what that craving is, don't you? That's your Body Wisdom.
- Body Wisdom, what's that?
- Body wisdom is the signal that warns you that you've used up the Vitamin C and energy you've got from your orange or juice with breakfast. And there's nothing like a second orange or an extra orange now to replace the Vitamin C and energy.
- That holds true with my whole family, my wife and boys. They like oranges very much
- And there's no better way to get this extra vitamin C and quick energy than in big luscious Florida oranges. Florida's give you more juice, more vitamin C, more flavor and they're packed with Florida sunshine. Get a big bag full today. They're your best fruit buy!
