

- Bone tiger bone.

Narrator: You're looking at a lucky dog. He's got himself a bone, a new kind of bone for dogs. New Gaines bones makes your dog feel like a dog again. You see Gaines bones aren't toys or biscuits, they're made like bones. So dogs gnaw on like bones, eat them like bones, play with them like bones, sometimes even hide them like bones. But Gaines bones are absolutely safe. No dangerous slivers ever, no mess either. And they're nourishing too. Made with real bone meal and extra vitamins and minerals. So for chewing exercise, teeth cleaning, extra nutrition, give your dog what he needs and enjoys more than anything else in the world, a bone to chew on. A Gaines bone. It costs just pennies a day and he'll love you for it. Gaines bones, another fine product from General Foods. A new kind of bone for dogs.
