

[Announcer] Heat, it's too valuable to lose. So Texaco wants to show you some ways to keep your heat at home.

- Just think I'll go right through this wall. (Heat thumping)

- I'll be darned. (Heat sniffing)

- Insulation. As I remember I could slip up through the window frames in the crack... (Heat mumbling)

- They installed weatherstripping. Now wait, the garage door, ha, they always leave that... (Heat thumping)

- Closed. If I can get to the attic up the stairs, under the door. (Heat mumbling) (Heat bumping)

- They insulated the ceiling. I know, I know. The chimney. (Heat laughing) Here we go up the... Up the... The damper's closed. Oh well, might as well stay and warm things up around here. Say, could you turn down the thermostat? It's warm in here. [Announcer] Texaco wants you to keep warm this winter while you're keeping your fuel cost down. (Heat puffing)
