

- Hi, I'm Bob Dixon, and this is Sinton a beautiful and talented miniature poodle. Come on Sinty, hup hup! That's it. Stylish, highly intelligent poodles have great dispositions and make wonderful companions and perfect house pets. Sinton here is living proof of the superior nourishment that Gaines homogenized meal can provide your dog. For Gains meal is completely uniform, homogenized into each little nugget rich in meat protein, is every nutritional element dogs are known to need. By contrast, most other meals are part flakes, part dusty powder. Ingredients tend to separate in the package. Nourishment can vary from feeding to feeding, when moistened other meals can get gummy, pasty even stay dry in parts but clean wholesome Gaines meal absorbs moisture quickly, evenly. Makes an appetizing easier to eat meal dogs love. For the best in flavor and nourishment then feed your dog Gaines homogenized meal, and he'll enjoy a longer prime of life.
