

- Okay, thank you.

- Joe? I have had it with my old razor. Give me the best razor you've got.

- Hey, Joe, give him a Trac II, two bladed razor.

- Why the Trac II?

- Hey, I use it and it gives me a fantastically close shave, and it's so safe that sometimes I even have to check to make sure the blades are in the cartridge. Hey, look, I've tried a lot of razors and believe me, the Trac II is just incredible.

- How could it be so close and safe at the same time?

- Simple: as the first blade shaves the whisker, it lifts it out so the second blade can shave it again, closer and both blades are recessed so it's safer.

Announcer: The Gillette Trac II shaving system. It's the closest thing to a perfect shave.

- I'm sold, give me a Trac II.

- Here you are.

- Oh, thanks. No, thanks.
