

- Come on, honey, let's go.

- But the movie's only half over.

- My stomach feels awful.

Audience Member: Shh!

- Look.

Man: Pepto-Bismol Tablets?

Woman: Brand new.

- But do they work like--

- Yes, like Pepto-Bismol Liquid. Chew 'em and see.

Man: Tastes good.

Narrator: Pepto-Bismol Tablets give you the same coating action as Pepto-Bismol Liquid. Look, a leading alchemist in water as directed, an antacid tablet dissolved in water, and Pepto-Bismol Liquid. Watch. No coating action here, none here, but look at Pepto-Bismol Liquid's protective coating action. The same coating action you get with Pepto-Bismol Tablets to help stop distress of indigestion, nausea, restore control to lower tract.

- That was a great movie!

Narrator: Quick as a wink, you're in the pink with new Pepto-Bismol Tablets and Pepto-Bismol Liquid.
