

- Hello, I'm Dr. Antwan. And I'd like to talk to you about the best way to feed your dog. It's just as easy as one, two. Two Gaines-Burgers, the different dog food. You see when they make Gaines-Burgers, they leave out most of the moisture you'd normally find in canned dog food. So Gaines-Burgers are concentrated. In fact, just two Gaines-Burgers contain more solid nourishment than a whole can of dog food. 100% nourishment. Meat, plus all the vitamins, minerals, vegetables, and milk protein that a healthy dog needs every day. Well by the way, a suggestion, since Gaines-Burgers are concentrated, it's a good idea to serve a bowl of fresh water, whenever you feed your dog. And it's just as easy as that. Freshwater and Gaines-Burgers. It's the best way to feed your dog.
