BEFORE LOAN

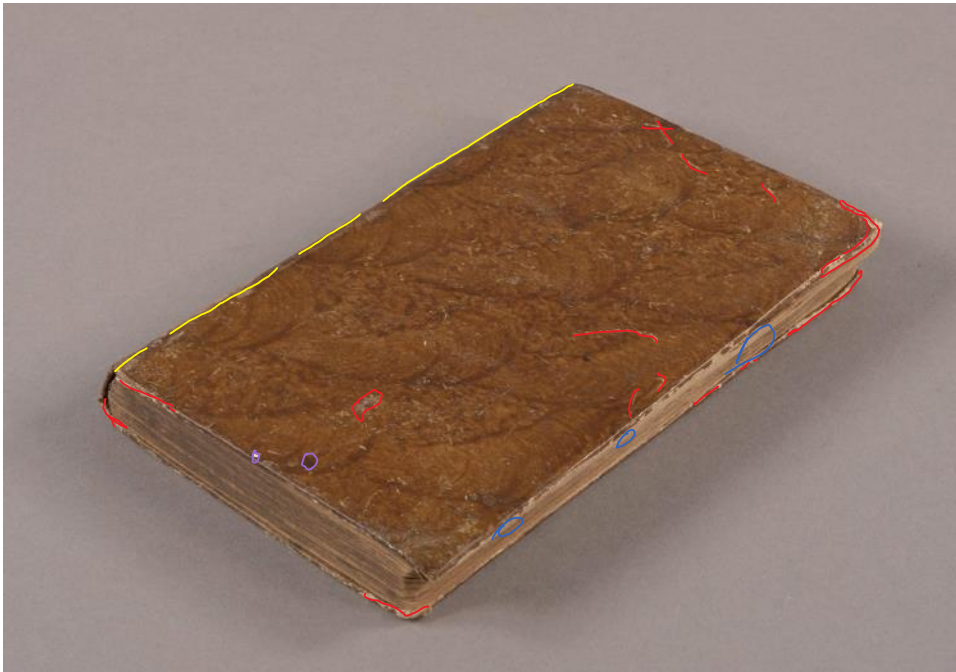

Description: Case binding fully covered in coated brown paste paper. No titling or decoration on the case. No endbands, edges sprinkled red. Endsheets and textblock are composed of light brown laid paper. Bookplate tipped to front pastedown, graphite and ink manuscript on front and back endsheets. Text is letterpress printed in black ink.

Condition: Binding is severely warped, with the lower board protruding at the fore-edge and major distortion of the round of the textblock. Dark staining on the textblock fore-edge. Both joints are cracking and the board edges and corners are worn. The front hinge is intact, but the rear flyleaf is pulling a way from the textblock at the head and there is a large gap developing between the textblock and the case when the rear board opens. Minor losses at the head corner of the majority of the text, but no other damage or leaf attachment problems observed.

Images:

- Damage, Abrasion
- Soiling, Discoloration
- Deformation, Dent, Crease
- Cracking
- Accretion
